# OUR IN-HOUSE DOOR SHOP

At Crooked River we are proud of our in-house door shop. Our door shop gives us the capability to supply our customers with custom, reliable, stock door products. We take raw door slabs and turn them into fully prepped, ready-to-install units. We custom mortise for hinges, drill for handles, strikes, and fabricate our own jambs to suit your exact project requirements. That means when your door leaves our shop, it's ready and fit to be installed.

Since our interior doors are machined on-site, you have more control over sizing, hardware prep, and custom jamb details—all at a better price. Whether you need a standard size door or something unique, we tailor each door to your needs. Our in-house stock door slab options are shown in this catalog on pages 22-28.

## NON-STOCK BRAND HIGHLIGHT:

**TRUStILE**  
A MARVIN BRAND

Need **custom interior doors** that fit your project perfectly? Consider TruStile.

## Any Door, Any Style, Any Size:

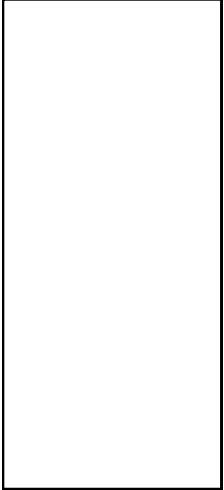

TruStile has developed a manufacturing capability that allows them to provide literally any door style for any sized opening. Every door is built to order, providing customers the flexibility to specify the exact style and size required for each and every door opening. TruStile believes doors are a critical design element in today's home. TruStile supports this vision by offering the broadest product line and the highest quality product in the door industry. With more than 400 styles or any custom design available in paintable MDF (medium density fiberboard) or any stain-grade wood, TruStile can fulfill any design requirement. All TruStile doors feature architecturally correct stile and rail construction, the highest quality materials and are backed by a lifetime warranty.
